

# Symbology

- Military Standard - 2525 (MS-2525), Common Warfighting Symbology is the DOD standard.
- FM 1-02 implements MS-2525 and is the Army doctrinal standard.
- FM 1-02 is the Army proponent for units, equipment, installations, support operations and stability operations symbols.
- Proponency for control measures are in appropriate functional field manuals.

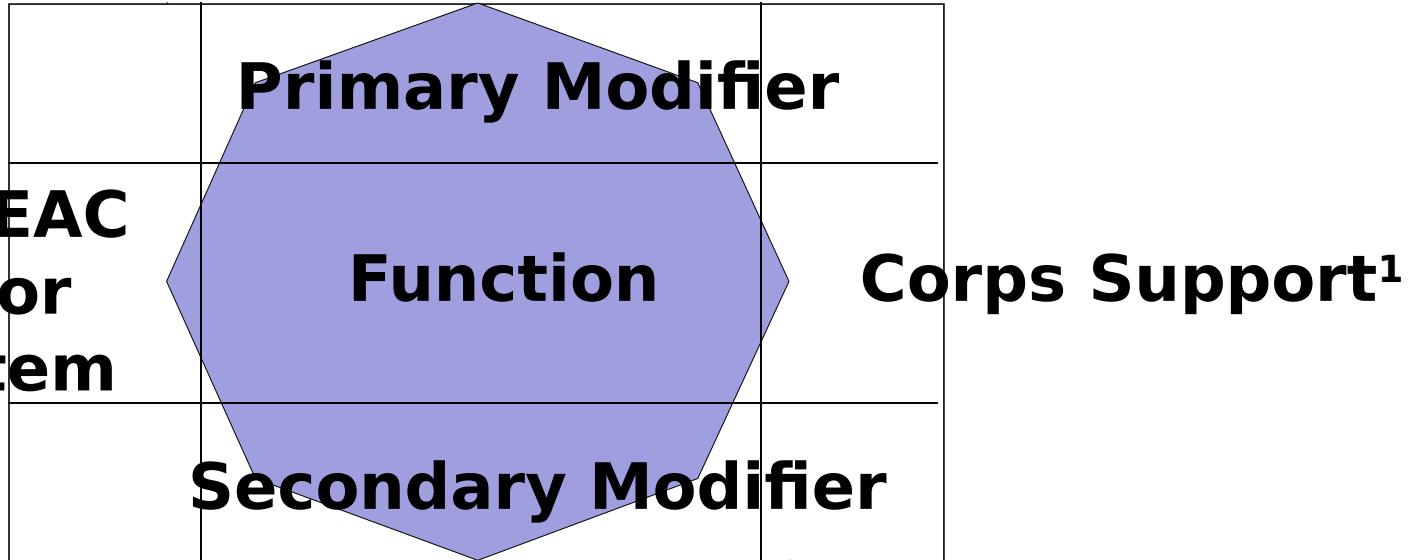

# Change Process

- Symbols must be in MS-2525 to go into automated systems.
- Symbology Standardization Management Committee controls MS-2525.
- CADD is the Army representative.
- Changes are requested using the Change Proposal form.
  - Internal review that includes USMC.
  - SSMC reviews, comments, and votes.

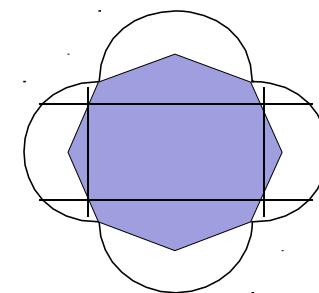

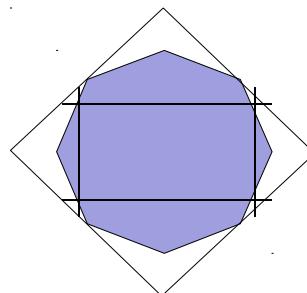

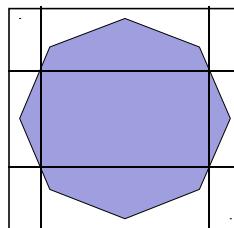

# **Ground Rules for Changes**

- Check in FM 1-02.
  - Symbols are built.
  - Tables are only examples of basic types.
- Symbols must be functional.
- Must be capable of being hand drawn, as well as computer generated.
- Three levels of specificity, except corps support, theater/EAC support, and main gun system.
- Control Measures.
  - Must have a definition to support it.
  - Must have a proponent manual with a description of its use.

**Theater/EAC  
Support or  
Gun System**

**<sup>1</sup>This is also part of theater/echelons above corps support modifier de**
